

APPENDIX A - Telemarketing Notice

There are several things you can do about telemarketing:

1. Register your name with the Federal Communications Commission's National Do-Not-Call Registry. Registration may be completed on the FCC's website at: <http://www.fcc.gov/cgb/donotcall/>, or by calling 1-888-382-1222
2. Upon receiving a call from a particular telemarketer, ask them to identify themselves clearly and then tell them you want to be placed on that company's "do-not-call" list, which they must keep according to Federal law.
3. Remember that it is not impolite to hang up on such an unwanted caller. After informing the caller you do not wish to be called back, simply say goodbye.
